**Attachments:** 24019-11-Min-001-Pre-Application Meeting\_DFFE -Rev1.pdf

Dear Sindiswa and Thulisile

Please find attached the minutes of the Pre-Application Meeting held on 13 August 2024 for the above project.

Kindly note that the project scope involves re-alignment of the N14 at one section and therefore, a Scoping and Environmental Impact Reporting (S&EIR) process would be undertaken.

As my telecom with Sindiswa Dlomo today, it was confirmed that a follow-up Pre-Application Meeting with the DFFE is not required as it is understood that this is a S&EIR process.

We trust that you find the above to be in order.

Please contact us should you have any queries.

Regards

**NATASHA LALIE** [MSc. Environment and Society, EAPASA 2021/3611 - Registered EAP, Pr.Sci.Nat]

Afternoon Natasha,

Please note that the proposed realignment of the N14 will trigger Activity 27 of LN 2 (see attached IQ for ease of reference).

Regards,

Ms. Sindiswa (Sindi) Dlomo

**Subject:** Reference No: 2024-08-0001\_N14- Section 12 Road Improvements from Coligny (km0) to Ventersdorp (km58.0) in North West Province

Dear Sindiswa

Thank you for your inputs and guidance at the Pre-Application Meeting( *Reference No: 2024-08-0001*) held with the DFFE on 13 August 2024 regarding the N14- Section 12 Road Improvements from Coligny (km0) to Ventersdorp (km58.0) in North West Province

Please refer to the screen shot below for the proposed re-alignment of the N14 from chainage km20 to km23. Kindly note that the blue line on the screen shot below indicates the proposed re-alignment of the N14 and the red line shows the existing N14 alignment. Kindly note that the distance between the existing N14 and the proposed re-alignment varies between 20m to 262m. We kindly request confirmation from the DFFE if the below project description would trigger Listed Activity 27 of Listing Notice 2 of the EIA Regulations of 2014 (as amended). The google earth .kmz files of the existing N14 and the proposed re-alignment of the N14 is attached herein.

As discussed at the Pre-Application Meeting, there is at least 3km length of the N14 that will be re-aligned from chainage km20 to km23, as a permanent solution. The proposed description of the re-alignment is as follows:

- A new road reserve with a minimum width of 40m is required for the proposed re-alignment of the N14;
- The proposed deviation/realignment will be a single carriageway in both directions;
- An Environmental Authorisation (EA) has not been obtained for the proposed re-alignment of the N14; and
- The footprint for the proposed re-alignment is a greenfields site. *(Are the portions 20m from the existing alignment also considered greenfield, noting that this portion may have existing impacts?).*

As discussed at the Pre-Application Meeting, we kindly request that you obtain feedback from Interpretation Query (IQ) at DFFE for a response on the applicability of Listed Activity No. 27 of Listing Notice 2, as described above.

Please contact the undersigned should you have any further queries.

Regards
